EXAMINER'S AMENDMENT

An Examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this Examiner's amendment was given in a telephone interview with John E. Curtin on Thursday, January 25, 2007.

Please amend the application as follows:

As for claim 9:

Please terminate the claim with a period.

Please cancel claims 11-17.

Claims 11-17 (cancelled).

As for claim 25:

Please terminate the claim with a period.

REASONS FOR ALLOWANCE

Claims 1, 3-10, 18 and 20-25 are allowed. The following is an Examiner's statement of reasons for allowance:

Independent claim 1 of the present application teaches an interleaver comprising: a set leader generator operable to generate four set leader values for each set of sixteen initial indices, wherein each index within the initial set of indices is associated with an initial position of a bit in a input bit stream; an inner set index generator operable to generate sixteen permuted indices for each four set leader values; and a bit router operable to route each bit in the input bit stream to a randomized position in an output sit stream in accordance with its permuted index. The foregoing limitations are not found in the prior arts of record. Particularly, none of the prior arts of record teach nor fairly suggest, *"...a set leader generator operable to generate four set leader values for each set of sixteen initial indices, wherein each index within the initial set of indices is associated with an initial position of a bit in a input bit stream; an inner set index generator operable to generate sixteen permuted indices for each four set leader values; and a bit router operable to route each bit in the input bit stream to a randomized position in an output sit stream in accordance with its permuted index."*

Independent claims 10 and 18 include similar limitations of independent claim 1 and therefore are allowed for similar reasons.

Dependent claims 3-9 and 20-25 depend from allowable independent claims 1 and 18 and inherently include limitations therein and therefore are allowed as well.

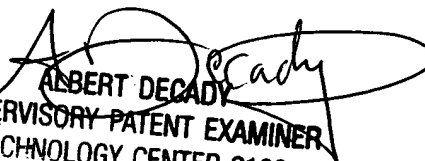

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mujtaba K. Chaudry whose telephone number is 571-272-3817. The examiner can normally be reached on Mon-Thur 9-7:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Albert DeCady can be reached on 571-272-3819.
